

Dillon Stinson

Tulsa, OK • dds1244@utulsa.edu • 580-678-7939 • <https://linkedin.com/in/dillonStinson>

SUMMARY

Security candidate focused on vulnerability reporting, lifecycle visibility, and Python-driven automation, with internship experience converting GitLab SAST findings into management-ready reports. Recent healthcare capstone mapped migration risks and designed HIPAA-aligned access controls.

SKILLS

- | | | |
|--------------------------------------|-----------------------------|----------------------------|
| • Vulnerability management | • Stakeholder communication | • Linux administration |
| • SAST report ingestion and analysis | • Security risk summaries | • Network traffic analysis |
| • Python | • Risk assessment | • Security automation |
| • Excel / XLSX automation | • HIPAA-aligned design | • Technical presentations |

EXPERIENCE

Nonprofit Healthcare Organization, Project Consultant

2026-01 – 2026-05 • Tulsa, OK

- Mapped existing workflows and the technology environment to security, privacy, and implementation risks during a planned migration.
- Presented migration risks, security considerations, and rollout recommendations to technical and non-technical stakeholders to clarify vulnerabilities and escalation paths.

Self-directed / Independent, Security Automation Projects

2026-01 – Present • Remote

- Designed security-focused automation workflows for vulnerability discovery and remediation tracking using structured logs, alerting, and approval gates to improve visibility across automated systems.

Dillard's, Information Security Intern

2025-05 – 2025-08 • Little Rock, AR

- Helped build a GitLab SAST-to-Excel reporting workflow with severity breakdowns, team and repository views, and visual summaries for stakeholders.
- Correlated vulnerability details such as severity and logging dates to improve visibility into remediation priorities.
- Translated technical vulnerability findings into actionable reporting for decision-makers.

Accurate Interpretations, Technical Operations Intern

2024-05 – 2024-08 • Lawton, OK

- Performed onsite network traffic analysis with Wireshark to identify anomalies, support troubleshooting, and strengthen secure network operations.

EDUCATION

Bachelor of Science in Computer Information Systems , The University of Tulsa	in progress, expected 2026-05
Master of Science in Cybersecurity , The University of Tulsa	in progress, expected 2026-12
