SUMMARY

Entry-level cybersecurity analyst with internship experience in SAST vulnerability reporting, stakeholder-ready security summaries, and risk assessment for a healthcare migration. Brings Python-based reporting automation, monitoring guardrails, and clear communication for technical and non-technical audiences.

SKILLS

- | | | |
|--------------------------------------|---------------------------|----------------------------------|
| • Vulnerability management | • Excel / XLSX automation | • Wireshark |
| • SAST report ingestion and analysis | • Security monitoring | • Risk assessment |
| • Python | • Log forwarding | • Stakeholder communication |
| • OpenPyXL | • Graylog | • Incident response fundamentals |

EXPERIENCE

Nonprofit Healthcare Organization, Project Consultant

2026-01 – 2026-05 • Tulsa, OK

- Mapped current workflows and the technology environment to security, privacy, and implementation risks during a planned system migration to guide design and rollout planning.

Self-directed / Independent, Security Automation Projects

2026-01 – Present • Remote

- Designed automation for vulnerability discovery and remediation tracking using structured logs, alerting, and approval gates to improve visibility across automated systems.
- Built monitoring and approval-gate workflows that detected automation failures, flagged risky actions, and routed remediation through human review.

Dillard's, Information Security Intern

2025-05 – 2025-08 • Little Rock, AR

- Helped build a SAST reporting workflow that pulled findings from company GitLab repos and turned scanner output into clean Excel reports with severity breakdowns, team and repository views, and visual summaries for stakeholders.
- Correlated vulnerability details like severity and logging dates to make remediation priorities clearer to the teams responsible.
- Translated technical vulnerability findings into actionable reporting tailored for decision-makers.
- Supported secure code training efforts so developers could meet PCI expectations.

EDUCATION

- | | |
|---|-------------------------------|
| Bachelor of Science in Computer Information Systems , The University of Tulsa | in progress, expected 2026-05 |
| Master of Science in Cybersecurity , The University of Tulsa | in progress, expected 2026-12 |

CERTIFICATIONS

- | | |
|-------------------|---------|
| CompTIA Network+ | 2024-08 |
| CompTIA Security+ | 2025-12 |
